# Why changed motoring conditions demand a new margin of safety

have brought maded changes in the consider apparatus of successbilities. But do you know that even more radical changes are to be found inside the equite? These changes have come graduhily. Trop bring changed operating conditions, Smaller boars and longer model designs have grown in fever. Compressions have been increased Higher engine speeds are the rate Operating temperatures see better.

You know that the past few years

mode designs have grown in fever. Compressions have been increased Higher origins speeds are the rate Operating temperatures see heere. Off possiting devices are frequently used. Many other changes are being made. Automobile manufaitures consumity feature the changes they are making in their designs. As the surfacines in scientific highering in their designs.

As the surfacines in scientific labbrastion, we are being saked to define the relation of these many changes to labbration. Every change mentioned above the species burden on the labbraeating oil. Every one of them calls ennouncement in an important series

for an increased margin of safety. The need is emphasized self forthe by coday's deving conditions. Car owners are now more numerous than relephons subsembers. Only stress are congened. The road for quick acceleration has increased. Beery start, and sider on the guess pure subsided strates on the

country in vite faster travel for long

commons periods. Only the summobile registers can fally appreciare whosever sensitation continued fast driving parts on both the engine and the labeleuring of safety in imperature. Always as sep with the developments in stoometive design, the

Vacuum Oil Company has constantly adaptive Gongo le Mobiled to mere changed conditions and to name as ample margin of safety. The correct grade of Mobiled possible this added margin of safety

professional advice as determined by our Board of Automotive Engineers. On this page we have only himsel at the changed conditions. In later interest this publication we will ex-

inters of the publication we will explain more fully—"Why changed morening conditions demand a new margin of safety."

What a salesman says is fine, but what the

car itself says is final. Go to an Auburn dealer. Tell him you want to drive the new Auburn 8-88. You want to see what it does and how it does it. You want to drive 5 or 50 or more miles per houron good roads and bad ones, on hills and round sharp curves. You want to see for yourself how easily it steers, how well it holds the road, how it does not tip, how smoothly it performs, and how comfortably it rides. Tell the dealer you know Auburn must be good, you hear so much favorable comment, and see so many thousands on the streets, but that you want to see if it meets your requirements. You want the car to sell itself. If it does not, you will not be asked to buy. Asings Antonobile Congress, Asbura, Schloss

## There's nothing else like Old Dutch

Old Dutch has won distinction as "The Symbol Old Dutch is so efficient because it is so different: of Healthful Cleanliness" because there is nothing else like it for keeping the home hygienically clean and sanitary. Old Dutch is a natural cleanser of a distinctive quality and character. It looks like a fine powder, yet, under the microscope its particles are flaky and flat shaped. Like thousands of tiny crasers, these particles simply, quickly and easily ares the invisible impurities as well as the dirt you see

it is free from harsh, scratchy grit, and does not scratch. This is a vital protection in the home, because scratches are catch-alls for unseen and unhealthful impurities.

Millions of housewives know that a little Old Dutch goes a long way and that it is the safest and most economical for all cleaning. As Healthful Cleanliness is infegured to health, us is Old Dutch your infegured to Healthful Cleanliness
